

About INVOLVE

INVOLVE was established in 1996 and is part of, and funded by, the **National Institute for Health Research**, to support active public involvement in NHS, public health and social care research. It is one of the few government funded programmes of its kind in the world.

As a national advisory group our role is to bring together expertise, insight and experience in the field of public involvement in research, with the aim of advancing it as an essential part of the process by which research is identified, prioritised, designed, conducted and disseminated.

MISSION: INVOLVE is the lead for advancement of public involvement in health and care research across NIHR and beyond. We achieve this by working with others to raise aspirations, drive up standards, provide guidance and facilitate partnerships.

INVOLVE will be the platform that enables others to lead for values-led, public shaped involvement	INVOLVE will shape the future of involvement	INVOLVE will expand international & cross-sector leadership in partnership	INVOLVE will invest in people, systems and intelligence for excellence and sustainability
