

Public Information Pack (PIP)

Booklet 1: A quick guide

2018. How to get actively involved in NHS, public health and social care research – A quick guide.

The Public Information pack (PIP) is made up of four booklets and is for members of the public who are interested in getting involved in NHS, public health and social care research. The booklets have been produced by INVOLVE with support and advice from members of the public to help us ensure we cover the kind of information people need when first getting involved in research.

The other three booklets in the series are:

IN Bulletin 5 – Clinical Research Ambassador Group

Welcome to the fifth issue of our IN: Bulletin.

This bulletin looks at the Clinical Research Ambassador Group (CRAG) based at Birmingham Heartlands Hospital.

Guidance on co-producing a research project

Co-producing a research project is an approach in which researchers, practitioners and the public work together, sharing power and responsibility from the start to the end of the project, including the generation of knowledge.

This guidance is a first step in moving toward clarity about what we mean by co-producing a research project. It explains the key principles and features of co-producing a research project and suggests ways to realise the principles and key features. Finally, the guidance outlines some of the key challenges that will need addressing, in further work, to aid those intending to take the co-producing research route.
