

Involvement Cost Calculator

Do you need to budget for public involvement?

Please note that benefits guidance and tax legislation have been subject to considerable change/reinterpretation since 2019. Any INVOLVE documents referring to the payment of involvement fees may now be out of date and are pending a review during 2020. INVOLVE's guidance should not be substituted for professional advice, and INVOLVE accepts no liability for decisions or actions taken as a result of its guidance. You are always recommended to take your own tax, finance or legal advice.

Step 1 – use ‘Budgeting for Involvement’ to plan your budget. This guide provides practical advice on how to budget for involving patients, carers and the public in research. Included is a dummy study as a worked example to show how the process works (see section 3 of ‘Budgeting for Involvement’).

Step 2 – use the Involvement cost calculator to work the actual costs of involving people in your study.

Please note that this resource is **not intended to plan for the costs associated with people taking part as research participants**. See section 1.4 In ‘Budgeting for Involvement’ for more details.
